FELT LOAD

TRADIZIONALE and V3 are two cartridges manufactured for hunting with setters. Characterised by the felt wad, these cartridges outperform other cartridges in respect of the wider pattern spread and with regards to the enviromental respect in as much that the utilisation of the felt wad eliminates the plastic waste. For those who like to shoot with a smaller gauge, we have been made new TRADIZIONALE FELTRO 20 Ga. with the same characteristics as the 12 Ga.
