

Smart and Easy: More Safety for Your Business

Unpack and off You Go • Highest Quality • Made in Germany

MOBOTIX Software

PoE

The MOBOTIX Plug&Play Solution Includes:

- Pre-configured MOBOTIX IP cameras
- Pre-configured NAS
- Professional MOBOTIX VMS
- PoE switch

Perfect Plug&Play

The bundle consists of a number of different MOBOTIX single lens cameras, a network attached storage device (NAS), a standard PoE switch and the MOBOTIX Video Management System (MxManagementCenter). All components are perfectly optimized to work with each other to ensure seamless setup and operation with minimal installation time and no project risk.

All-Inclusive Made in Germany

The MOBOTIX Plug&Play Solution is an out-of-the-box bundle and an all-inclusive,

fully-featured package including MxMC, recording, optional MxAnalytics and much more. All cameras are Made in Germany – manufactured and tested with the highest quality standards in the industry.

Highest Market Coverage

This bundle is specified to cover the typical requirements of a video surveillance solution for small offices, small home installations and small enterprises. For example, a small retail shop or tax consultant office requires typically not more than 4 cameras, a small storage and a PoE switch.

Perfect Start with MOBOTIX

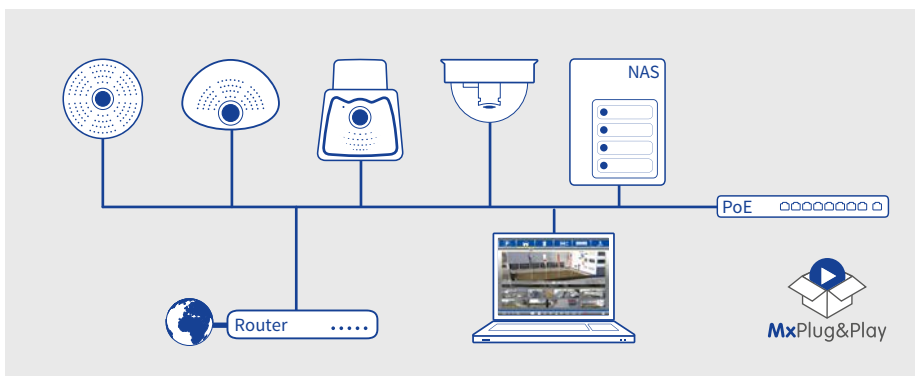

The MOBOTIX Plug&Play bundle reduces the installation time to an absolute minimum. All possible settings are pre-configured without the need to configure cameras or the NAS. Thanks to this package being fully com-

- **Complete IP Camera Bundle**
Fits to all applications and markets
- **Powerful & Innovative Software**
VMS, video analysis, video sensor, event recording
- **Minimal Installation Time**
